### Boys' Rude Acts.

Sunday afternoon several thoughtless boys in the park ran into some of the flowers and shrubbery and greatly damaged it. The railroad company is indeed very kind to open this place for the enjoyment of the public, and it is a shame that the property should be damaged in any way. The park has been locked by the officials to give it an opportunity to recover its beauty. In the mean time a strong effort is being made to apprehend who did the damage and if found out the boys will be arrested and fined.

### Stingy Men.

An exchange tells of the three stingiest men on record. The first will not drink water unless it comes from a neighbor's well; the second forbids his family to write anything but a small hand as it wastes ink to make large letters; the third stopped the clock at night to save wear and tear on the machinery. All of them refused to take a newspaper on the grounds that it is a terrible strain on their spectacles to read.

### Kentucky's Wealth.

The State Board of Equalization has completed its labors, and despite the hard times and the depreciated value of both real and personal property in the State, the Board has raised property valuations so as to make nearly \$200,000 more taxes this year than last.

The total value of all property in the State equalized for taxation is \$748,045,772. Last year it was \$717,965,102. The total amount of tax to collect this year is \$3,740,228 86, which is by far the largest amount of tax ever collected in this State.

The telephone war between the East Tennessee Telephone Company and the Harrodsburg City Council resulted in the town being thrown without telephone service. A franchise with rates named by the council will be sold soon.

Congressman John W. Langley has secured the passage through the Senate a bill for holding Federal courts at Jackson.

Dr. E. O. Guerrant will preach at the Presbyteria church Sunday night.

Earl Hines, of Irvine, is visiting his uncle, Prof. C. W. Campbell.

### Twelve Months Dead Line.

By order of the Postoffice Department all weekly papers can no longer be mailed as second-class matter to subscribers twelve months or more in arrears. In complying with this new ruling we have been compelled to cut off 300 names, and all subscribers from this time on will have to be promptly dropped when their subscription becomes twelve months past due. Please keep yourself from under the dead line by paying one year in advance. Publisher.

### STATE CONVENTION

Called to Meet in Lexington, June 11 to Select Delegates to National Convention.

The Democratic State Executive Committee called a convention at Lexington June 11 to choose delegates to the National Convention. Delegates to the State Convention will be chosen in mass conventions June 6. Lexington was chosen as the convention city by a vote of 7 to 6 over Louisville.

Louisville, Frankfort and Winchester also extended bids for the convention.

Bryan was indorsed for President by a unanimous vote of the committee.

Following is the official call:

By order of the Democratic State Executive Committee of Kentucky, a Democratic State Convention is called to meet in the city of Lexington on Thursday, 11th day of June 1908, for the purpose of appointing delegates to the National Democratic Convention which will assemble in the city of Denver on July 7, 1908, to nominate candidates for President and Vice President of the United States.

The Democrats of each county and where a county embraces more than one legislative district, of each legislative district will assemble in mass-convention, in their respective county seats and districts, as aforesaid, on Saturday, June 6, 1908, at the hour of 2 p. m. on said day, and appoint delegates to represent the said counties and districts, respectively, in the State Convention. The basis of representation in the State Convention shall be one delegate for each 200 votes and fraction of over 100 votes cast in the respective counties and districts for the Democratic electors in the Presidential election of 1904.

Witness my hand as chairman of the Democratic State Executive Committee this May 19, 1908.

LEWIS McQUOWN,  
Chairman Democratic State Executive Committee.

### Atkinson-McDonald.

At Lexington Saturday, the Rev. R. A. Irvin officiating Mr. Virgil B. Atkinson, of Stanton, and Miss Mary McDonald, of Bowen, were quietly united in matrimony. The bride is a beautiful daughter of Noble McDonald, while Mr. Atkinson is a son of County Attorney John D. Atkinson and a well-known young man with a bright outlook. The Times extends congratulations.

Gov. Willson is one of the four selected to call future conferences of Governors of the States. The Courier-Journal yesterday had the picture of the quartet, and Willson still shows "the smile that wont come off."

### NEW CEMETERY.

Company to be Organized and Suitable Burial Place Provided for Clay City.

The question of organizing a cemetery company and taking in the old Eaton Burial grounds together with more territory adjoining is being agitated by some citizens of the town.

This is a good move and should be consummated. The project is to fence the grounds with a substantial iron fence and have the land well set in bluegrass and otherwise improve the spot to make it a fit burial place for every person in Clay City. Lots will be sold and the proceeds set apart to keep up the grounds.

Dr. Guerrant, who has charge of the orphanage which owns the land, is willing and ready to donate and make deed to the trustees the necessary land. This is very liberal on his part and if those really interested will do only half so much, we can have one of the most beautiful cemeteries in Eastern Kentucky. The grounds are naturally very beautiful.

Mrs. Pattie Ware, who has been a teacher in our city school for three years, will return to Richmond to reside with relatives. Mrs. Ware is a fine christian lady and a valuable adjunct to any community. She has the best wishes of a large number of friends in Clay City.

### A Slick Swindle.

Some unscrupulous concerns are said to have representatives in many counties of the state selling suit patterns to the consumer. These goods are highly branded imported material, but in reality are imperfect garments thrown back on the manufacturer's hands who are aiming to work them off on unsuspecting persons. The goods has been so made up and dyed as to largely obscure the imperfections and fool many people who are accustomed to deal with strangers in preference to home merchants when they can do so.

### Scraped Tobacco Bed.

Riley McIntosh was tried Monday in the Clay City Police Court on the charge of scraping T. S. Curtis' tobacco bed at Virden. Mr. Curtis and his wife claims to have come upon young McIntosh while he was doing the work. He was held over to Circuit Court under \$100 bond. Mr. Curtis for the past few years has been raising small crops of tobacco and had plants for three acres this year but says it is all up with him now that it is too late to grow more plants.

### Killed in Cincinnati.

Green Holmes, son of Leslie Holmes, of Stanton, was run down and killed by a C. H. & D. train in Cincinnati last Thursday. The remains were brought to Stanton where they were interred in the cemetery Sunday. Eld. J. A. Adams conducted funeral services. Holmes had been to the soldiers' home and was returning. He was a veteran of the Spanish-American war.

## State Board of Equalization.

A study of the finished work of the State Board of Equalization is indeed very interesting. Everybody knows all kinds of property has depreciated greatly in value since last year, and in reality it is several million dollars less than it was then. The Board takes a different view and has raised the valuation \$33,618,099 over last year's assessment, when in fact it should, if ever, have been lowered. The only property lowered, however, was the capital stock and surplus of the banks which was decreased from 100 cents to the dollar to 80 cents. Last year the Board of equalization was Democratic and the raise over the assessment was only \$3,537,429 or only one-tenth of what it is this year by a Republican board; and too during the heaviest panic in years. Had the bank stock not been lowered the raise this year would have been fully \$50,000,000.

The Republican party abused the Democrats when they were in office because of the existence of the Board of Equalization and the Internal Revenue Agents and said they were regular robbers, and this among other high-sounding and false accusations put them in power.

The new board need not have done that which when performed by Democrats is called robbery, but instead, notwithstanding the panic, they raise the valuation so as to give the Republican administration nearly \$200,000 00 more revenue to spend—a general raise of about 5 per cent. Still, the banks, institutions best able to bear a full taxation, are lowered 20 per cent.

Does this look much like working to the best interests of the "burdened taxpayers?"

## One Way to Get Good Roads.

There has been \$11,678 spent for bridges in this county across Red river in the last three years, and to this must be added for the approaches to these bridges at least enough to make \$13,000 in all. If in this period of time this much can be invested in bridges, all of which we heartily indorse, why not, after we have gotten these bridges, spend this much per year for good roads.

True enough we were in great-

er need of the bridges, but now, that we have the bridges, with the three more which we hope to get in the next year or two, we must have better roads. With the bridges we need the roads much more now. No country can be properly built up without good roads.

Clay City and vicinity has raised of the \$13,000 referred to \$4,600 and paid on the bridges in this end of the county. If the county funds are not sufficient to properly improve the roads, why not the citizens of all parts of the county do as we have done in the bridge matter raise a fund by private subscription to be sufficient?

If other portions of the county will do as much for its advancement as this end, we assure you that we will have good roads in addition to the good bridges being built, by private subscriptions in this end and county aid. We mean business about Clay City in this road and bridge question, and have shown our faith by our works, and are ready to do so again with but a semblance of a chance for county help, which we feel is justly due us.

## Foraker Backs Down.

Senator Foraker, who has been making a grand-stand play at Washington for the discharged negro soldiers at the disgraceful Brownsville, Texas episode, has played quits. He failed to raise enough howl to get a single instruction for president. Taft who discharged the soldiers by the sanction of the President did right. Foraker knew it, but he wanted these two officers investigated hoping to prejudice the negroes so he would stand a showing for President. In this he failed and saw the Senatorship slipping away because of his radical stand for nothing. He now has abandoned his pet measure hoping to go back to the Senate.

He should be defeated, and so should any man who condescends to such low down tricks in politics. He very much reminds us of the newly elected United States Senator from Kentucky.

The whole truth of the business is the Republicans are learning that petting the negroes does not make them any votes, and Roosevelt and Taft are to be commended by all members and lovers of the Caucasian race and its purity for their stand of right-ful acts in the Brownsville incident, and it is certain to add thousands of white votes to Taft in the coming election, regardless of the political issue.

## Minors and Whiskey.

There is too much drinking by boys in Clay City. The saloon people, we believe, are not selling it to them, and are using every effort to detect a minor and keep him from their place of business. The liquor is bought by older men for these boys, though the officers find it hard to learn who it is. This should be stopped and a closer watch placed on the boys who have been in the habit of getting drunk.

Taking to drink so early has made many unredeemable drunkards, and too much diligence can not be enforced by officials in the endeavor to find out who it is that is wrecking the future lives and happiness of these yet thoughtless youths. Parents, citizens of the town and everybody should join in the enforcement of the law. No one is your friend that will furnish a boy under twenty-one years old with liquor, so help prosecute them and later

you will be thanked by a boy you helped to save.

## Powers the Sole Issue.

The Republican race for Congress in the Eleventh district is getting warm between Mathews and Edwards, the incumbent Edwards has made good in office, but the party seems determined to defeat him because he refused to sign the petition for Caleb Powers' pardon. Among other things the papers of that district are saying:

"You are bound to acknowledge that every time a petition for a pardon for Caleb Powers has been presented to D. C. Edwards he has found some excuse for refusing to sign it. That is policy which a true Republican will not stand for."

"The best evidence that Edwards did not sign the Powers petition, is that his name is not there. It is presumed that he would make an excuse in his favor."

A Republican paper whose editor stands high in sobriety and morals, says Kentucky Republicans committed suicide by not sending Gov. Bradley as delegate to the National convention. If half what we have heard of Bradley is true, he is today one of the worst moral degenerates in Kentucky, and when discreet, honest members of any party sees it essential to success to always put such men in the lead as Bradley, morally and temperately, it seems to us time to abandon politics altogether and seek men of moral and sober qualifications regardless of politics.

If honest sentiment prompted the Republican party to overthrow Bradley in Kentucky and indorse Taft over Fairbanks, the party has arisen 50 per cent. in courage and decency.

This is a day of strange and rare occurrences. For instance, the Federal government has brought suit to dissolve the American tobacco trust while in Kentucky Governor Willson constantly keeps soldiers all over the State to perpetuate its vile workings, by encouraging farmers to raise tobacco and sell it to the trust at low figures.

Gov. Willson says he is through making promises about when he will decide Howard-Powers pardon cases. Maybe he is waiting to see how they use Congressman Edwards in the Eleventh district who is running for re-election in a primary with a record of having flatly refused to sign Powers' petition for pardon.

## \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address:

## Courier-Journal Cuts.

A Special Rate of \$1.25 For The Campaign and Election.

For the first time in its history, The Courier-Journal has made a special cut rate on its Daily for the campaign. The regular price of the paper is \$6 a year or \$3 for six months. For the campaign a rate of \$1.25 has been made, to apply to orders received during the months of June, July and August. After August 31 the regular rates will be in effect. Subscriptions received during these months at this rate will be entered on the Courier-Journal mailing list until December 1 next, when all will expire.

Send in your orders at once, through this paper. The earlier you get in, the more papers you receive.

Henry Watterson has announced that the Courier-Journal will support the Democratic ticket from end to end and he believes the ticket will win in November. The Louisville Times, edited by Col. W. B. Haldeman, has made the same rate, \$1.25, under the same conditions. The Times is the best Democratic afternoon paper printed anywhere. The Clay City Times one year and either of the above daily papers from this date to December 1st 1908 for only \$1.50.

The sweet girl graduate is due again. The Clay City graduates are always very popular and progressive, never appearing to be a sole creation of beauty and admiration, yet that is just what they are, with a combination of the higher aims of life and womanhood.

#### Kentucky Crop Report.

The weather during the month has been damp and rainy with very little sunshine. Farmers were never so behind with their work. Little plowing and practically no seeding has been done.

Oats that were planted early are growing rapidly, but much land intended for oats has not been sown on account of not being plowed.

Much attention has been given to the selection of seed corn as a result of the great interest in Farmers' Institutes and the campaign of education going on among the farmers. We predict a banner corn crop for Kentucky this year.

All garden and truck patches are very late. More potatoes and tomatoes will be grown in Kentucky than ever before. New canneries are being established in many parts of the State.

Scarcely any tobacco will be raised in the Burley District because of the "no crop" sentiment which prevails among independent as well as Equity growers.

In the Dark District an average crop will be grown and the Growers Association is securing a large per cent. of the prospective acreage.

The demand for poultry and dairy products steadily increases.

Rye, barley and wheat look fine and are very green. The snow fell on the 29th will not materially injure the growth. No appearance of green bug and Hessian fly on wheat.

Alfalfa shows a splendid growth and the rain has assisted the roots in getting a very deep setting. An increased acreage all over the State is shown and we have received many inquiries for bulletins on alfalfa showing that much interest is being taken in this very much important plant.

Corn will be planted late on account of such a heavy rainfall, but a very increased acreage will be planted.

In the western part of the State some fruit has been killed by early frosts, as the season in that section is further advanced than in the central and eastern sections of the State where very little damage has been done to the fruit crop.

The indications point to a prosperous Spring, notwithstanding that there is uneasiness displayed in some of the counties of the tobacco districts, but on the whole conditions are encouraging.

#### Hoarded Money.

Hoarded money is dead. It pays no wages. It buys no groceries. It shelters no family. For industry to be prosperous, for business to be profitable, for employment to be constant, money must be kept in circulation. The merchant must receive money for his goods, and in turn pay the money to his employees and to the factories which produce what he sells, and which in turn pay out to their workmen, the grocer and store keeper, keeping in continued circulation. Money in itself is of no value to anybody except the miser. It is not edible until it is exchanged for food. It does not keep off the rain until it is paid out for rent. It does not protect from cold until it is exchanged for clothing. Idle money is the most useless commodity in the world. What money a man does not need to pay his bills he should deposit in a bank, where it will be put to work. In a bank's vault, money is a basis for credit, and credit is necessary for profitable business. The worst place for a man to keep his money is in his pocket. It burns

holes there. It is a constant temptation to excessive expenditure. The money which a man does not need for his necessary purchases of food and clothing and shelter should be put to work. Do not hoard it. Its possession is the cause of ceaseless worry. The hoarding of money is the surest way to check prosperity and to throw out of work the very people who do the hoarding.—Harrodsburg Herald.

"To discontinue an advertisement," says John Wanamaker, Philadelphia's great merchant, "is like taking down your sign. If you want to do business you must let the public know it. Standing advertisements are better and cheaper than reading notices. They look more substantial and business like and inspire confidence. I would as soon do business without clerks as without advertising."

**Hygeno DIP AND DISINFECTANT**  
**THRIFTY LIVE STOCK**

The all important question with the farmer and live stock raiser is how to produce the most beef, pork or mutton with the smallest expense. The only answer is, prevent disease rather than try to cure it. Hygeno-dip and disinfectant is a powerful germicide and positive insecticide. Used occasionally as a dip and spray it will keep the livestock in a healthy and thrifty condition. Hygeno contains less than one cent a gallon when diluted and we can positively say it will cost you more if you do not use Hygeno than it will if you do. If your dealer cannot supply you with Hygeno, send us his name and we will take care of you and mail our Health Book and free sample.

**Syracuse "EASY" Washer**

"Your machine is a complete success. I learned more about washing out of your little booklet than I ever would have from all the women you could stand in a row. I have been paying \$1.25 a week for washing when I can do the same in two hours with the "EASY." J. M. BYRD, Hampton, Va.

"We have tried the "EASY" and find it just as you represent it and the only washer I ever saw that does the washing clean without rubbing on the board. It is easy to work and does the washing thoroughly. It certainly has no equal." E. E. LIGGETT, R. D. 1, Box 4, Avella, Pa.

Make the washing easy for one-twelfth of the year at our expense. Wash everything washable in the house. If you cannot make the "EASY" earn its price during the house-cleaning season return it at our expense. Pages 26-27 of our free book on Washing Formulas give you valuable information on washing flannels.
